87
[] - Meeting with RE&CD on Quantico

STAT

[] and I met this morning with [] C/Real Estate
Branch, and [] RE&CD/FEB, to discuss acquisition of an
INTERNET site at Quantico. We explained to Fred that we had received a
"GO" from the Executive Director to negotiate with the Marines and/or the
Navy Department on site acquisition. After a general briefing on
INTERNET and discussion on our basic requirements for the property, Fred
said that he saw no real problem with what we wanted. He will set up a
meeting for ED, himself, and the Pentagon Focal Point Committee sometime
next week so that we can get the paperwork, that is necessary in dealing
with the military, started.
